16.2.1 Accounting Policies and Concepts;

Accounting policies consist of principles, bases, conventions, rules and procedures, and also Accounting concepts are ideas and assumption which are fundamental to accounting practices. Therefore some of our accounting concepts are as follows;

16.2.2 Basis of measurement

The financial statements have been prepared on the historical cash basis. No adjustment has been made for inflationary factors in the financial statement.

16.3 Functional and presentation of currency

The financial statement of the year end 2010 were presented in Sri Lankan rupees (LKR.) and nearest cents.

However we have decided to present our Financial Statement in LKR. And round to the nearest rupee which is effective from the financial year January 01st 2011 and ahead. Year 2017 was presented in LKR. and rounded to the nearest rupee.

The stipend and University fees relating to Capacity Building program are paid in USD (\$) where that Expenses is converted to LKR at the spot rate of transaction date and prepaid the stipend and University fees are taken in to financial statements at the rate of Balance sheet rate. The difference arisen due to changes on Exchange rate has been taken in to financial statements as exchange gain or Loss.

16.4 Accounting for Govt. Grants disclose of Govt. Assistance

- (a) Accounting for Government Grants & Disclosure of Government Assistance is adopted.
- (b) We further say, that accounting policy had been adopted with regard to the government grants was the method of capital approach but that government grant was related to the fixed assets it had been taken to the accounts under the method of income approach.
- (c) A Deferred Income Fund has been identified only in respect of the assets purchased during the year 2018 in the Financial Statements of 2018

16.4.1 Capital Grants (Treasury Grants Research)

According to the Sri Lanka Council for Agricultural Research Policy Act No.14 of 1987, all the Grants received need to be credited to CARP Fund and all the expenses need to be done out of that. In that Sense Capital Grants (Treasury Grants Research) need to be a considered as a supplementary Note to the CARP Fund and the remaining balance need to be reflected in the CARP Fund each Year. Then only Carp Fund will be remaining as an Equity Fund in Statement of Financial Position.

From 2010 to 2017 the funds that were used to purchase of fixed assets have not been reflected in the Capital Grants (Treasury Grants Research). But a depreciation income had been transferred to the Statements of Comprehensive Income. Because of that cumulative adverse effect over last years a negative balance in CARP fund was visible in Capital Grants (Treasury Grants Research) in 2017 & 2018.

Corrective Adjustments have been made in order to rectify above adverse effect based on the issues emphasized by the Auditors General by his queries dated 31.12.2019 with the reference of AGL/E/CARP/2018/03.

In Summary areas that were recognized by the Auditor General is as follows,

1. Treasury Grants Research
In the years of 2017 & 2018 Treasury Grants Research has reflected negative balances.
 - a) Council have made capital expenses more than Fund received for the activities in Capital nature in 2015, 2017 & 2018.
 - b) It was doubtful the manner of expenses that were incurred on fixed assets without reflecting such expenses in Treasury Grants Research as that is in capital nature.
 - c) The depreciation impact of Non- Consumables has also affected to the negative balance in Treasury Grants Research.
2. The Amortization of the funds received on behalf of Fixed Assets have not been happened according to the requirements of LKAS 20, Accounting for Government Grants & Disclosure of Government Assistance as the funds used for those fixed assets purchases are not reflected in Treasury Grants Research.
3. According to the Sri Lanka Council for Agricultural Research Policy Act No.14 of 1987, all the Grants received need to be credited to CARP Fund and all the expenses need to be done out of that.

In order to rectify the above the initial entries that had been passed to Accumulated Surplus or Deficit (Prior Year Adjustments), Carp Fund & Gift were reversed in respective Years and placed the correct entries according to LKAS 20, Accounting for Government Grants & Disclosure of Government Assistance the Correction entries, Calculation and the explanatory notes are attached as Annexures.

16.4.2 Research Management Activities

Generally, the Capital Fund are utilizing to Research Management Activities where the requirements of LKAS 38 for Intangible assets are not comply with. Hence the Research management activities are in a nature where that could not be capitalize. Due to that reason both the expense and amount of Fund are shown in the Comprehensive Income Statement in order to reflect the effect.

கோவிட்-19 தொற்றுநோய்களின் தாக்கங்களினால் பாதிக்கப்பட்டிருந்த பொருளாதாரத்தை மீளக்கட்டியெழுப்புவதற்கு அவசரமாக முயற்சிக்க வேண்டியிருப்பதன் தேவையை வலியுறுத்தும் முகமாக இ. வி. கொ. ச. இன் 12 தேசிய குழுக்களினதும் தலைவர்கள் அழைக்கப்பட்டு அவர்களுக்கு என ஒரு மெய்நிகர் சந்திப்பு நடத்தப்பட்டது. தேசிய குழுக்களின் சகல ஏற்பாட்டாளர்களும் இந்த மெய்நிகர் சந்திப்பில் கலந்துகொண்டனர். கோவிட்-19 தொற்றுநோயால் விவசாயத் துறை பாதிக்கப்பட்டுள்ளதால் விவசாயத் துறைக்கு தேவையான குறுங்கால மற்றும் நடுத்தர கால ஆராய்ச்சி முன்னுரிமைத் திட்டங்களை வகுத்தமைப்பது இந்த மெய்நிகர் சந்திப்பின் குறிக்கோளாக இருந்தது. பெருந்தோட்டம், பெருந்தோட்டம் சாராத துறைகள், கால்நடைகள் மற்றும் கோழி வளர்ப்பு, நீரியல் சார்ந்த வளங்கள், காடு வளர்ப்பு மற்றும் பூந்தாவரங்கள் வளர்ப்பு முதலியன போன்ற ஆறு பிரிவுகளின் நிமித்தம் தேவையான குறுங்கால ஆராய்ச்சி முன்னுரிமைத் திட்டங்கள் வகுத்தமைக்கப்பட்டன. இந்த முன்னுரிமைத் திட்டங்கள் அடங்கிய ஆவணம் உரிய சகலஅமைச்சுக்களுக்கும், சலக NARS நிறுவனங்களுக்கும், தேசிய திட்டமிடல் திணைக்களத்திற்கும்மற்றும் ஏனைய பொருத்தமான சகல அக்கறையுடைய தரப்புகளுக்கும் பகிர்ந்தளிக்கப்பட்டது.

கொள்கை சுருக்கம் - விவசாயத் துறையில் ஆராய்ச்சி முதலீடுகள்: உண்மையில் விவசாய ஆராய்ச்சியில் இலக்குக் கொள்கின்றோமா?

விவசாய ஆராய்ச்சிகளின் நிமித்தம் ஒதுக்கப்படும் திறைசேரி நிதிகளை ஆராய்ச்சி சம்பந்தமான திணைக்களங்களும் மற்றும் நிறுவனங்களும் அந்த நிதியை தகாத முறையில் கையாளுவது இலங்கையின் விவசாயத் துறை எதிர்நோக்கும் முக்கியமான ஒரு சவாலாகும். விவசாய ஆராய்ச்சி நிமித்தம் திறைசேரி தொடர்ச்சியாக நிதிகளை செலவிட்டு வருவதால் திறைசேரி நீண்டகால அடிப்படையில் கடுமையான பிரச்சினைகளுக்கு முகம்கொடுக்க நேரிடும். ஒவ்வொரு நிறுவனத்தினதும் ஆராய்ச்சி செயல் திட்டங்களை கவனமாக உரிய முறையில் கண்காணிப்பதன் ஊடாக பயனுள்ள நிதிகள் ஒருங்கிணைப்பும் மற்றும் நிதிகள் பட்டுவாடாவும் ஆராய்ச்சி நிதிகளின் தகாத பாவனையை குறைக்கவும் மற்றும் விவசாய ஆராய்ச்சியின் கட்டிலனாக நன்மைகளை அதிகரிக்கவும் உதவியாக அமையயும். திறைசேரிக்கு தகவல்கள் பற்றி பின்னூட்டல் செய்வதானது நிதிகள் செலவு செய்யப்படுவதை சீர்செய்து கொள்ளும் நிமித்தம் மிகவும் அத்தியாவசியமாகும்.

விவசாய ஆராய்ச்சிக்கு ஒதுக்கப்படுகின்ற நிதிகளின் தகாத பயன்பாடு எதிர்காலத்தில் மீள்வரையறைக்குட்படுத்தப்படுதல் வேண்டும் என இந்த கொள்கை சுருக்கம் முன்மொழிகின்றது. முதலாவது, கிடைக்கக் கூடிய ஆராய்ச்சி சார்ந்த நன்மைகளை கொண்டு நாட்டின் முன்னுரிமையின் அடிப்படையில், பல பிரிவு ஆராய்ச்சிக் குழுக்கள் வருடாந்தம் ஆராய்ச்சி பிரேரணைகளை தயாரிக்க வேண்டும். இது மிகச்சிறிய ஆராய்ச்சிக் கருத் திட்டங்களின் எண்ணிக்கையை குறைக்கும். இராண்டாவது, துறை சார் ஆராய்ச்சி முன்னுரிமைகளின் அடிப்படையில் இ. வி. ஆ. கொ. ச. இன் ஆறு துறை சார்ந்த குழுக்கள் இறுதியாக சிபாரிசு செய்யும் இந்த ஆராய்ச்சிக்

கருத் திட்டங்கள் ஆராய்ச்சி செயல் திட்டங்களில் உள்ளடக்கப்படுதல் வேண்டும். மூன்றாவது, எதிர்பார்த்த ஆராய்ச்சி சார்ந்த நன்மைகள் ஒவ்வொரு ஆராய்ச்சி முதலீட்டிலும் உத்தரவாதப்படுத்தப்பட வேண்டும். மேலும், விவசாய ஆராய்ச்சி மீதான முதலீடு ஏற்கெனவேயிருக்கின்ற செயல்முறைகளை சீர்செய்த பின்னர் அதிகரிக்கப்படவும் வேண்டும். நான்காவது, ஆராய்ச்சிகள் இரட்டையடைவதை குறைத்துக் கொள்ளும் பொருட்டு நிறுவனங்களுக்கு இடையில் பல பிரிவு ஒருங்கிணைப்பு சார் ஆராய்ச்சி கூட்டொத்துழைப்பு மேம்படுத்தப்பட வேண்டும். ஐந்தாவது, வினைத்திறன் வாய்ந்த பயனுள்ள ஒரு ஆராய்ச்சி முகாமைத்துவ செயல்முறையை பேணும் பொருட்டு ஆராய்ச்சிக் கருத் திட்டங்களின் அடிக்கடி கண்காணிப்பு செயல்முறையாக பின்பற்றப்படுதல் வேண்டும்.

16.2.1 Accounting Policies and Concepts;

Accounting policies consist of principles, bases, conventions, rules and procedures, and also Accounting concepts are ideas and assumption which are fundamental to accounting practices. Therefore some of our accounting concepts are as follows;

16.2.2 Basis of measurement

The financial statements have been prepared on the historical cash basis. No adjustment has been made for inflationary factors in the financial statement.

16.3 Functional and presentation of currency

The financial statement of the year end 2010 were presented in Sri Lankan rupees (LKR.) and nearest cents.

However we have decided to present our Financial Statement in LKR. And round to the nearest rupee which is effective from the financial year January 01st 2011 and ahead. Year 2017 was presented in LKR. and rounded to the nearest rupee.

The stipend and University fees relating to Capacity Building program are paid in USD (\$) where that Expenses is converted to LKR at the spot rate of transaction date and prepaid the stipend and University fees are taken in to financial statements at the rate of Balance sheet rate. The difference arisen due to changes on Exchange rate has been taken in to financial statements as exchange gain or Loss.

16.4 Accounting for Govt. Grants disclose of Govt. Assistance

- (a) Accounting for Government Grants & Disclosure of Government Assistance is adopted.
- (b) We further say, that accounting policy had been adopted with regard to the government grants was the method of capital approach but that government grant was related to the fixed assets it had been taken to the accounts under the method of income approach.
- (c) A Deferred Income Fund has been identified only in respect of the assets purchased during the year 2018 in the Financial Statements of 2018

16.4.1 Capital Grants (Treasury Grants Research)

According to the Sri Lanka Council for Agricultural Research Policy Act No.14 of 1987, all the Grants received need to be credited to CARP Fund and all the expenses need to be done out of that. In that Sense Capital Grants (Treasury Grants Research) need to be a considered as a supplementary Note to the CARP Fund and the remaining balance need to be reflected in the CARP Fund each Year. Then only Carp Fund will be remaining as an Equity Fund in Statement of Financial Position.

From 2010 to 2017 the funds that were used to purchase of fixed assets have not been reflected in the Capital Grants (Treasury Grants Research). But a depreciation income had been transferred to the Statements of Comprehensive Income. Because of that cumulative adverse effect over last years a negative balance in CARP fund was visible in Capital Grants (Treasury Grants Research) in 2017 & 2018.

Corrective Adjustments have been made in order to rectify above adverse effect based on the issues emphasized by the Auditors General by his queries dated 31.12.2019 with the reference of AGL/E/CARP/2018/03.

In Summary areas that were recognized by the Auditor General is as follows,

1. Treasury Grants Research
In the years of 2017 & 2018 Treasury Grants Research has reflected negative balances.
 - a) Council have made capital expenses more than Fund received for the activities in Capital nature in 2015, 2017 & 2018.
 - b) It was doubtful the manner of expenses that were incurred on fixed assets without reflecting such expenses in Treasury Grants Research as that is in capital nature.
 - c) The depreciation impact of Non- Consumables has also affected to the negative balance in Treasury Grants Research.
2. The Amortization of the funds received on behalf of Fixed Assets have not been happened according to the requirements of LKAS 20, Accounting for Government Grants & Disclosure of Government Assistance as the funds used for those fixed assets purchases are not reflected in Treasury Grants Research.
3. According to the Sri Lanka Council for Agricultural Research Policy Act No.14 of 1987, all the Grants received need to be credited to CARP Fund and all the expenses need to be done out of that.

In order to rectify the above the initial entries that had been passed to Accumulated Surplus or Deficit (Prior Year Adjustments), Carp Fund & Gift were reversed in respective Years and placed the correct entries according to LKAS 20, Accounting for Government Grants & Disclosure of Government Assistance the Correction entries, Calculation and the explanatory notes are attached as Annexures.

16.4.2 Research Management Activities

Generally, the Capital Fund are utilizing to Research Management Activities where the requirements of LKAS 38 for Intangible assets are not comply with. Hence the Research management activities are in a nature where that could not be capitalize. Due to that reason both the expense and amount of Fund are shown in the Comprehensive Income Statement in order to reflect the effect.

1. நிதிக் கூற்று

1.1. கணக்காய்வு பற்றிய அபிப்பிராயம்

விவசாய ஆராய்ச்சிக் கொள்கை சபையின் 2020 ஆம் ஆண்டு திசம்பர் மாதம் 31 ஆம் திகதிற்குரிய நிதி நிலை கூற்றும் மற்றும் அத்திகதியில் முடிவடைந்த ஆண்டிற்கான விரிவான வருமான கூற்று, ஒப்புரவு மாற்றம் பற்றிய கூற்று மற்றும் அத்திகதியில் முடிவடைந்த ஆண்டிற்கான காசுப் பாய்ச்சல் கூற்று மற்றும் நிதிக் கூற்றுக்களுக்கான குறிப்புகள், சாராம்சம், முக்கிய கணக்கீட்டுக் கொள்கைகள் முதலியன அடங்கிய 2020 ஆம் ஆண்டு திசம்பர் மாதம் 31 ஆம் திகதியில் முடிவடைந்த ஆண்டிற்கான நிதி கூற்று 1987 இன் 47 ஆம் இலக்க இலங்கை விவசாய ஆராய்ச்சிக் கொள்கை சபை சட்டம் மற்றும் இலங்கை ஜனநாயக சோசலிஷ் குடியரசு அரசியல் அமைப்பின் 154 (1) ஆம் உறுப்புரையுடன் சேர்த்து வாசிக்க வேண்டிய 2018 இன் 19 ஆம் இலக்க தேசிய கணக்காய்வுச் சட்டம் மற்றும் 1971 இன் 38 ஆம் இலக்க நிதி அதிகாரச் சட்டம் ஆகியவற்றின் ஏற்பாடுகள் பிரகாரம் எனது பணிப்பின் கீழ் கணக்காய்வு செய்யப் பட்டது. அரசியல் அமைப்பின் 154 (6) ஆம் உறுப்புவரையின் பிரகாரம் எனது அறிக்கை காலக் கிரமத்தில் பாராளுமன்றத்தில் சமர்ப்பிக்கப்படும்.

எனது அறிக்கையின் கணக்காய்வு அபிப்பிராயத்திற்கான அடிப்படைப் பிரிவில் விவரிக்கப்பட்டுள்ள கருமங்களிலிருந்து எழும் தாக்கங்கள் தவிர, இந்த சபையின் நிதிக் கூற்றுக்களின் ஊடாக 2020 ஆம் ஆண்டு திசம்பர் மாதம் 31 ஆம் திகதிற்கான நிதி நிலையும், அத்திகதியில் முடிவடைந்த ஆண்டிற்கான சபையின் நிதி சார்ந்த செயற்பாடுகளும் மற்றும் காசுப் பாய்ச்சல்களும் இலங்கை அரசு துறை கணக்கீட்டு நியமங்களுக்கு ஏற்ப உண்மையான மற்றும் நியாயமான ஒரு நிலையை பிரதிபலிக்கின்றன என்பது எனது அபிப்பிராயமாகும்.

1.2. கணக்காய்வு அபிப்பிராயத்திற்கான அடிப்படை

1.2.1. இலங்கை அரசு துறை கணக்கீட்டு நியமங்கள் பின்பற்றப்படாமை

இலங்கை அரசு துறைக் கணக்கீட்டு நியம இலக்கம் 07 இன் பிரகாரம் நிலையான சொத்துக்கள் பற்றிய பயனுள்ள பாவனை காலம் வருடாந்த ரீதியில் மீளாய்வு செய்யப்படாத காரணத்தினால் இரண்டு வகையான சொத்துக்களின் கீழ் ரூ.11,045,012 ஆகுசெலவு வாய்ந்த சொத்துக்களின் நிமித்தம் முழுமையான தேய்மான ஏற்பாடு செய்யப்பட்டிருந்தாலும், மேலும் பாவிக்கப்பட்டு வந்திருந்தன. அதற்கமைய, மதிப்பீடு செய்த தவறுகையை இலங்கை அரசு துறை கணக்கீட்டு நியம இலக்கம் 3 இன் பிரகாரம் திருத்தி நிதிக் கூற்றுக்களில் சீராக்குவதற்கு நடவடிக்கைகள் எடுக்கப்பட்டிருக்கவில்லை.

இலங்கை கணக்காய்வு நியமங்களுக்கு (இ.க.நி.) இணங்க என்னால் கணக்காய்வு செய்யப்பட்டது. குறித்த இந்த கணக்காய்வு நியமத்தின் பிரகாரம் எனக்கு இருக்கின்ற பொறுப்புக்கள் இந்த அறிக்கையிலுள்ள நிதிக் கூற்றுக்களின் கணக்காய்வு தொடர்பான கணக்காய்வாளரின் பொறுப்புக்கள் எனும் பிரிவில் மேலும் விரிவாக விவரிக்கப் பட்டுள்ளன.

1.3. சபையின் 2020 ஆம் ஆண்டிற்கான அறிக்கையில் உள்ளடங்கியுள்ள ஏனைய விபரங்கள்

இந்தக் கணக்காய்வு அறிக்கைத் திகதிற்கு முன்னர் எனக்கு கிடைத்த விபரங்கள் குறித்த இந்த சபையின் 2020 ஆம் ஆண்டிற்குரிய வருடாந்த அறிக்கையில் உள்ளடக்கப்பட்டுள்ளன. எனினும் அவை நிதி கூற்றிலும் எனது கணக்காய்வு அறிக்கையிலும் உள்ளடக்கப்படாத தகவல்களும், ஏனைய விபரங்களும் என கருதப்படும். இந்த ஏனைய விபரங்களுக்கு முகாமைத்துவம் பொறுப்புக் கூற வேண்டும்.

நிதிக் கூற்றுக்கள் பற்றிய எனது அபிப்பிராயத்தில் ஏனைய விபரங்கள் உள்ளடக்கப்படவில்லை. நான் அவை தொடர்பாக எந்த விதத்திலும் ஒரு உறுதிப்பாட்டை அல்லது எனது அபிப்பிராயத்தை தெரிவிக்கவில்லை.

நிதிக் கூற்றுக்கள் பற்றிய எனது கணக்காய்வுக்குரிய எனது பொறுப்பு யாதெனில் மேற்குறித்த இனங்கண்டறிந்த ஏனைய உரிய விபரங்களை பெற்றுக் கொள்ளக் கூடியதாக இருக்கின்ற நேரத்தில் (ஏற்புடையவாறு), வாசிப்பிலும் மற்றும் அவ்வாறு வாசிக்கும் போதும் ஏனைய விபரங்கள் நிதிக் கூற்றுக்களுடன் அல்லது கணக்காய்வில் அல்லது வேறு விதத்தில் எனக்கு கிடைத்த அறிவுக்கு எட்டிய வகையில் போதியளவு ஒவ்வாமல் இருக்கின்றனவா என பரிசீலித்துப் பார்ப்பதாகும்.

இந்த சபையின் 2020 ஆம் ஆண்டிற்கான வருடாந்த அறிக்கையை நான் வாசிக்கின்ற போது, அதில் போதிய பிறழ் கூற்றுக்கள் இருப்பதாக நான் அவதானித்தால், அவற்றை திருத்தும் முகமாக, நிருவகிக்கின்ற உரிய

தரப்புகளுக்கு அதனை அறியப்படுத்த வேண்டும். மேலும் சீராக்காமல் பிழையாக குறிப்பிடப்பட்டிருக்குமாயின், அவை அரசியல் அமைப்பின் 154 (6) ஆம் உறுப்புரையின் பிரகாரம் என்னால் காலக் கிரமத்தில் பாராளுமன்றத்தில் சமர்ப்பிக்கப்படவுள்ள அறிக்கையில் உள்ளடக்கப்படும்.

1.4. **நிதி கூற்றுக்கள் பற்றி முகாமைத்துவத்திற்கும் நிருவகிக்கின்ற தரப்புகளுக்கும் இருக்கின்ற பொறுப்புக்கள்**

இந்த நிதி கூற்றுக்களை இலங்கை அரசு கணக்கீட்டு துறை நியமங்கள் ஏற்பாடுகளுக்கு இணங்க தயாரித்து நியாயமான விதத்தில் சமர்ப்பிப்பதற்கும் மற்றும் மோசடி அல்லது தவறுகை காரணமாக எழக் கூடிய போதியளவு பொய்யான தகவல்கள் நீங்கிய நிதிக் கூற்றைத் தயாரிப்பதற்கும் இயலுமான வகையில் தேவையான உள்ளகக் கட்டுபாட்டை தீர்மானிப்பது முகாமைத்துவத்தின் பொறுப்பாகும்.

நிதிக் கூற்றுக்களைத் தயாரிக்கும் போது, சபை தொடர்ந்து இயங்கக் கூடிய அதன் ஆற்றல் பற்றி தீர்மானிப்பதும் முகாமைத்துவத்தின் ஒரு பொறுப்பாகும். முகாமைத்துவம் சபையை மூடுவதற்கு கருதுகின்ற, அல்லது வேறு மாற்றி வழியேதும் இல்லாதிருக்கின்ற பட்சத்தில் அதன் இயக்கச் செயற்பாடுகளை நிறுத்த நடவடிக்கையை எடுத்தாலொழிய, சபையை தொடர்ச்சியாக நிருவகித்து செல்ல முடியும் என்றதன் பேரில், கணக்குகளை கணக்கீடு செய்வதும் மற்றும் சபையை தொடர்ந்தும் நிருவகித்து செல்வதற்குரிய விடயங்களை வெளிப்படுத்துவதும் சபை முகாமைத்துவத்தின் பொறுப்பாகும். சபையினது நிதி அறிக்கையிடும் செயல்முறையை பரிசீலிப்பதுப் பார்ப்பது நிருவகிக்கும் தரப்புகளின் பொறுப்பாகும்.

2018 இன் 19 ஆம் இலக்க தேசிய கணக்காய்வு சட்டத்தின் 16 (1) ஆம் உப பிரிவின் பிரகாரம் சபையினது திட்டத்தின்படி வருடாந்த மற்றும் கால ரீதியான நிதிக் கூற்றுக்களை தயாரிக்கக் கூடியவாறு சபை தன் சகல வருமானங்கள், செலவினங்கள், சொத்துக்கள் மற்றும் பொறுப்புக்கள் என்பன தொடர்பான புத்தகங்களையும் மற்றும் பதிவேடுகளையும் முறையாக பேண வேண்டும்.

1.5. **நிதி கூற்றுக்கள் பற்றி கணக்காய்வாளருக்கு உள்ள கணக்காய்வு தொடர்பான பொறுப்புக்கள்**

ஒட்டுமொத்தமாக நிதிக் கூற்றுக்கள், மோசடியால் அல்லது தவறால் ஏற்படக் கூடிய சகல பொருண்மையான பிறழ் கூற்றுக்களிலிருந்தும் நீங்கியதா என்பதற்கான ஒரு நியாயமான உறுதிப்பாட்டைப் பெற்றுக் கொள்வதும் மற்றும் எனது அபிப்பிராயத்தை உள்ளடக்குகின்ற ஒரு கணக்காய்வாளர் அறிக்கையை பெற்றுக் கொடுப்பதும் என்னுடைய குறிக்கோளாகும். நியாயமான ஒரு உறுதிப்பாடு, உறுதிப்பாட்டின் ஒரு

உயர் நிலையாக இருந்தாலும் இலங்கை கணக்காய்வு நியமங்களுக்கு இணங்க மேற்கொள்ளப்படுகின்ற கணக்காய்வில் பொருண்மையான ஒரு பிறழ் கூற்று காணப்படுமாயின் அதனை எல்லா நேரங்களிலும் கண்டுபிடிக்கும் என்பதற்கு உத்தரவாதமளிக்காது. மோசடி அல்லது தவறு காரணமாக பிறழ் கூற்றுக்கள் எழக்கூடும் என்பதுடன் அவற்றின் போதியளவான தன்மையானது இந்த நிதி கூற்றுக்களை அடிப்படையாக கொண்டு பரிசீலனையாளர்கள் மேற்கொள்ளும் பொருளாதாரம் சார் தீர்மானங்கள் மீதான தாக்கத்தின் அடிப்படையில் தங்கியிருக்கும்.

இலங்கைக் கணக்காய்வு நியமங்களின் பிரகாரம் கணக்காய்வின் பாகமாக தொழில்முறை சார்ந்த தீர்ப்பு என்னால் பிரயோகிக்கப்பட்டு கணக்காய்வு முழுதிலும் தொழில்-முறை சார் சந்தேகம் பேணப்பட்டது. மேலும்:

- வெளிப்படுத்தப்பட்ட எனது கணக்காய்வு அபிப்பிராயத்திற்கான ஒரு அடிப்படையை ஏற்படுத்திக் கொள்ளும் போது மோசடி அல்லது தவறு காரணமாக நிதிக் கூற்றுக்களுக்கு ஏற்படக் கூடிய தவறான கூற்றுக்களின் பொருண்மையானளவு இடர்களை இனங்கண்டு மதிப்பீடு செய்யும் பொருட்டு சமயோசிதமான உகந்த கணக்காய்வு நடைமுறைகள் திட்டமிடப்பட்டு செயல்படுத்தப்பட்டன. தவறாக குறிப்பிடுவதன் காரணமாக எழுகின்ற போதியளவு பொய்யான கூற்றுக்களிலிருந்து வரும் இடர்களை விடவும், மோசடியாக நிகழும் இடர்கள் கடுமையானதாக இருப்பதற்கு பொய்யான, போலியான ஆவணங்களை தயாரித்தல், வேண்டுமென்று விட்டுவிடுதல், அதே போல் தவறாக காட்டுதல் அல்லது உள்ளகக் கட்டுப்பாடுகளிலிருந்து விலகுதல் என்பன காரணமாக அமைகின்றன.
- உள்ளகக் கட்டுப்பாட்டினது பயன்தகு தன்மை தொடர்பான ஒரு அபிப்பிராயத்தை வெளிப்படுத்தும் எண்ணத்திலன்றி, சமயோசித பொருத்தமான கணக்காய்வு நடைமுறைகளை திட்டமிடுவதற்கு உள்ளகக் கணக்காய்வு பற்றிய அறிவு பெற்றுக் கொள்ளப்பட்டது.
- பிரயோகிக்கப்பட்ட கணக்கீட்டுக் கொள்கைகளின் பொருத்தப்பாடு கணக்கீட்டு மதிப்பீடுகளின் நியாயத் தன்மை மற்றும் முகாமையின் மூலம் அவை தொடர்பாக செய்யப்பட்டிருந்த வெளிப்படுத்தல்கள் என்பன மதிப்பீடு செய்யப்பட்டன.
- நிகழ்வு அல்லது நிலைமைகள் என்பவற்றின் காரணமாக சபையை தொடர்ச்சியாக நிருவகித்து செல்வது தொடர்பாக போதியளவான சந்தேகம் உண்டா என்பது சம்பந்தமாக பெற்றுக் கொள்ளப்பட்ட கணக்காய்வு சான்றுகளின் அடிப்படையில் கணக்கீடு செய்வதற்கு சபையை தொடர்ச்சியாக நிருவகித்து செல்வது தொடர்பான ஒரு அடிப்படையைப் பிரயோகிப்பதன் பொருத்தப்பாடு தீர்மானிக்கப் பட்டது. போதியளவான சந்தேகம் உண்டு என நான் அவதானித்தால் நிதிக் கூற்றுக்களில் அது தொடர்பான வெளிப்படுத்தல்களுக்கு

எனது கணக்காய்வு அறிக்கையில் கவனம் செலுத்தப்பட வேண்டும். அந்த வெளிப்படுத்தல்கள் போதியளவில் இல்லையெனில், எனது அபிப்பிராயத்தைத் தெரிவிக்க வேண்டும். எனினும் எதிர்காலத்தில் நிகழ்கின்ற நிகழ்வுகளினதும் நிலைமைகளினதும் அடிப்படையில், சபை நிலைத்திருக்கும் தன்மை முடிவுறலாம்.

- வெளிப்படுத்தல் கட்டமைப்பு மற்றும் உள்ளடக்கம் ஆகியவற்றுக்கு உரிய அடிப்படைக் கொடுக்கல்வாங்கல்கள் மற்றும் சம்பவங்கள் உகந்தவாறு நியாயமான விதத்தில் உள்ளக்கப்பட்டுள்ளனவா அதே போல் வெளிப்படுத்தல்கள் அடங்கியுள்ள கூற்றுக்கள் மொத்தமாக முன்வைக்கப் பட்டுள்ளனவா என மதிப்பிடப்பட்டது.

எனது கணக்காய்வில் கண்டுபிடிக்கப்பட்ட முக்கியமான கணக்காய்வு முடிவுகள், உள்ளக் கட்டுப்பாட்டு முறைமையின் பிரதான பலவீனங்கள் அதே போல் ஏனைய விடயங்கள் என்பன பொறுப்புக்கூறும் தலைமை அதிகாரியின் கவனத்திற்கு என்னால் கொண்டுவரப்பட்டுள்ளன.

REPORT OF THE CHAIRMAN

SLCARP commenced her duties with a new ambition at the beginning of the year 2020. But due to the impact of COVID 19 pandemic since March 2020, most of the planned activities were seriously affected and impact was serious on the agricultural research especially on food security. As a solution to the prevailing situation and to regain the agricultural development in the country Sri Lanka Council for Agricultural Research Policy developed short and medium term research priorities to obtain sharp V-shaped recovery in the agriculture sector. Due to the pandemic situation, virtual meetings were conducted with agriculture experts in the country and develop short- and medium-term research priorities for all main six sectors in the agriculture namely, food crops, plantation crops, forestry, fisheries and aqua-culture, livestock and poultry and floriculture. These research priorities were developed by considering the manifesto of the country “*Vistas of Prosperity and Splendour*” to uplift the farmers and make them into farming entrepreneurs. The document of short and medium term research priorities was circulated among policy makers of the relevant ministries, scientists and stakeholders to commence and follow the short term research activities.

In the year 2020, research proposals were called from National Agricultural Research System (NARS) institutes as per the short and medium-term research priorities for the National Agricultural Research Plan of Sri Lanka (NARP). The programme provides funds to carry out Agriculture Research projects of the NARS and National University System (NUS) where agriculture/agriculture related research are carried out. Currently funds are provided to Department of Agriculture, Department of Export Agriculture and National Universities where agriculture related research are carried out. The projects are granted annually for a period of 1 to 3 years. The research project proposals submitted to SLCARP by relevant institutions in the NARS and NUS, are evaluated external reviewers selected by the relevant National Committees functioning at the SLCARP for recommendation for funding.

SLCARP Annual Report 2020

According to the mandated functions of the Sri Lanka Council for Agricultural Research Policy, performance of agricultural research projects, institutions and divisions have to be reviewed. With regard to this, SLCARP has completed reviewing 04 organizations in 2020 with technical assistance of external review teams. Department of National Botanical Gardens (DNBG), Sri Lanka Council for Agricultural Research Policy (SLCARP), Research division of the Forest Conservation Department (FCD) and Research division of the Sri Lanka Cashew Corporation (SLCC) were reviewed. Draft review reports were presented to the respective institutes and SLCARP Council for their observations before finalizing. The final review reports were prepared by the respective reviewers after incorporating the relevant comments made by the institutes and the SLCARP. Final review reports of the institutes were sent to the respective Secretaries of the Ministries, Director Generals of relevant Departments, Treasury and respective Institutes Directors for implementation of the recommendations.

Under the Human Resources Development programme for the NARS, fourteen students were sent to the University Putra Malaysia (09), Kaseartsart University (01) and University of Philippines (04). SLCARP has provided the necessary coordination to the scholars for admissions and ensured receipt of funds for the programme throughout year 2020, therefore all payments due to the scholars were made. Progress of the scholars who are continuing their studies in the respective Universities abroad and who have returned to Sri Lanka due to COVID-19 pandemic situation are monitored by SLCARP and issues regarding the scholars are regularly reported to the Council of SLCARP. Necessary coordination from SLCARP was provided to all 76 scholars during the COVID-19 pandemic.

During this critical period, all scientific Committees constituted with highly recognized senior professionals of the country perform a very valuable function by devoting their valuable time. The high level of contact and encouragement must be continued. With the new normal condition with all risks many experts share their experiences through new communication technologies such as Zoom App and Skype. As the Chairman I wish to acknowledge their valuable contribution through serving in different committees.

SLCARP Annual Report 2020

I wish to express my gratitude for all the members of the council for their cooperation in this critical period to manage the institute smoothly. REPORT OF THE SECRETARY

According to the Act No. 47 of 1987, Sri Lanka Council for Agricultural Research Policy (SLCARP) is mandated to coordinate research and human resources development, promote and facilitate Excellence in Agricultural Research in the National Agricultural Research System (NARS). Since then, the SLCARP has been actively engaged in supporting NARS and provides research grants as well as human resources development programs to NARS scientists. The main functions of the SLCARP are: identification of research policies and research priority areas, to uplift the agriculture sector in the country. In the year 2020, short and medium term research priorities were released by SLCARP by considering the manifesto of the country. Twelve National Committees established by the Council with the experts of the agriculture sector. During the year 2020, National Committees were operated though the virtual meetings to evaluate the NARP proposals and to develop short and medium term research priorities. The Committees evaluated 32 NARP new proposals and 29 recommended for NARP 2021 program. Analysis of the Action Plans of all NARS Institutes in 2020 was revealed that all Institutes compliance to the research priorities set by the SLCARP. Those committees organized, one virtual national symposium to disseminate the research findings and create a platform to the scientists and stakeholders to discussed research issues:

As per the cabinet approved capacity development programme to develop the human resources in the NARS institutes, further selections were made in year 2020 and 16 candidates were directed foreign universities to continue their post graduate degrees.

One of the most important mandated functions of the SLCARP is to collect and analyze research data base of the National Agricultural Research System. Significant amount of Government funds are allocated annually to undertake research in the 25 Research Institutes under different Ministries, covering Plantation, Non-Plantation, Fisheries, Livestock, Forestry and Floriculture Sectors. SLCARP is the only organization mandated with the responsibility of identifying the National Priorities for research in the above sectors in agriculture. Therefore, collection of research themes and other information is essential to use as a management tool for research managers, researchers and General Treasury in making appropriate decisions. This analysis has generated

many important messages to research managers to bring about necessary changes in the country's Agricultural Research Agenda. This analysis is useful to the Department of Agriculture, Directors of the Crop Research Institutes, respective Ministries and General Treasury in identifying gaps in research based on research priorities, research disciplines and necessity to adjust resources allocation for more useful and urgent research agenda. Research Action Plans for 2020 of 25 Institute of the NARS were analysed by SLCARP and their progress also monitored.

In additionally, 04 research organizations were reviewed in 2020 with technical assistance of external review teams. Department of National Botanical Gardens (DNBG), Sri Lanka Council for Agricultural Research Policy (SLCARP), Research division of the Forest Conservation Department (FCD) and Research division of the Sri Lanka Cashew Corporation (SLCC) were reviewed. Review reports of the institutes were sent to the respective Secretaries of the Ministries, Director Generals of relevant Departments, Treasury and respective Institutes Directors for implementation of the recommendations.

Finally, I wish to extend my sincere gratitude to the Chairman, Council members, AMC members, all the National Committee Members and the staff of the SLCARP for their untiring support given to accomplish the objectives of the SLCARP in this COVID 19 pandemic situation in the year 2020.

Analysis of Research Action Plans of 25 National Agricultural Research Institutes (NARIs) in 2019

One of the most important mandated functions of SLCARP is to collect and analyse research data base of the National Agricultural Research System. Significant amount of Government funds are allocated annually to undertake research in the 25 research institutes under five Ministries, covering Plantation, Non-Plantation, Fisheries, Livestock, Forestry and Floriculture Sectors. SLCARP is the only organization mandated with the responsibility of formulating National Agricultural research policies and identifying the National priorities for research in the above sectors. Therefore, collection of research themes, projects, budgets and other information is essential to use as a management tool for research leaders, researchers and Treasury in making appropriate decisions. SLCARP Short and Medium Term Research Priorities for Agricultural Sector with the impacts of COVID -19 for 2021-2025

A Zoom Meeting was called for all chairpersons of 12 SLCARP National Committees to highlight urgency of attempting to regain economy with the impacts of COVID – 19. This meeting was attended by all conveners of the National Committees. The objective of this meeting was to formulate short term research priorities for Agricultural sector with the impacts of COVID -19. The short-term research priorities were formulated for six sectors such as Plantation, Non-plantation, Livestock & Poultry, Aquatic Resources, Forestry and Floriculture. This priority document was distributed to all relevant Ministries, all NARS Institutions, Department of National Planning and other relevant stakeholders.

Policy Brief - Research Investments in the Agricultural Sector: Do we really Target for Agricultural Research?

Mis-management of treasury funds allocated for agricultural research by research related Departments and institutes is a key challenge faced by the Sri Lanka's agricultural sector. Continuous fund disbursement by the treasury for agricultural research could face series of issues in the long run. Effective coordination and management of fund disbursement through careful monitoring of research action plans of each institute could reduce mismanagement of research funds and increase tangible research outcomes of agricultural research. Feedback of information to the treasury is essential to rectify the fund disbursement.

The policy brief suggests that mismanagement of fund utilization for agricultural research should be re-framed in future. First, multi-disciplinary research teams should develop research proposals annually based on country's priority with achievable research outcomes. This reduces the number of tiny research projects. Second, research action plans should be included with these research

proposals which are finally recommended by the six sector committees of SLCARP based on sector research priorities. Third, expected research outcome must be guaranteed in each research investment and investment on agricultural research should be increased after refinement of the existing process. Fourth, promote inter institutional multi-disciplinary research collaboration to minimize research duplication. Fifth, frequent monitoring of research projects should be practiced in order to maintain an efficient and effective research management process.

National Agricultural Research Plan (NARP) Year 2020

National Agricultural Research Plan of Sri Lanka (NARP) is the programme to provide funds to carry out Agriculture Research projects of the National Agricultural Research System (NARS) and National University System where agriculture/agriculture related research are carried out. These projects are designed in accordance with the priority areas identified by Sri Lanka Council for Agricultural Research Policy for a particular period. Currently funds are provided to Department of Agriculture, Department of Export Agriculture and National Universities where agriculture related research are carried out. The projects are granted annually for a period of 1 to 3 years

Calling New project proposals for the following year, evaluation of these proposals to make recommendation for funding from the Treasury, Half Yearly Progress Monitoring of on-going research projects, Annual On-site progress monitoring and final Terminal Report evaluation are the major activities of this programme and most of these activities are carried out by the relevant National Committees of the council. In year 2020 onwards, SLCARP introduced new activities in to this programme such as calling Concept papers before calling Research proposal and Research proposals were called for only for those selected concept papers after evaluating. In addition, to evaluate/review Research Proposals by two external reviewers who are experts in the relevant subject.

In 2020, 34 Concept Papers were submitted by National Agricultural Research System and National University System. These concept papers were evaluated by SLCARP and the relevant National Committees. Proposals were called only for 31 selected concept papers. Thirty one

research proposals were submitted to SLCARP by DOA (19), DEA (6), CRI (1), PRI (1) and Universities (4). In addition, Department of Export Agriculture submitted 5 more proposals in late December. Each proposal was evaluated by two external reviewers. Based on the review reports and discussions made through Zoom meetings, 29 projects were recommended for funding subject to addressing revisions suggested by reviewers and also at the zoom meetings. Projects were ranked according to the reviewer's marks. One project proposal submitted by South East University of Sri Lanka was rejected according to the Reviewers recommendation and the decisions taken at the zoom meeting. NARP budget was submitted to the Treasury the Ministry of Agriculture.

In 2020 total Number of projects in operation was 51 (37 of the Department of Agriculture, 08 of the Department of Export Agriculture, and 06 of the National Universities). funds for the NARP projects were not given to PIs as allocated by SLCARP, due prevailing situation of the country due to COVID-19 pandemic. Hence Half Yearly Progress Monitoring or Onsite Projects Monitoring was not carried out. Two Terminal Reports were evaluated and rest of the Terminal Reports were not evaluated as funds were not available.

16.2.1 Accounting Policies and Concepts;

Accounting policies consist of principles, bases, conventions, rules and procedures, and also Accounting concepts are ideas and assumption which are fundamental to accounting practices. Therefore some of our accounting concepts are as follows;

16.2.2 Basis of measurement

The financial statements have been prepared on the historical cash basis. No adjustment has been made for inflationary factors in the financial statement.

16.3 Functional and presentation of currency

The financial statement of the year end 2010 were presented in Sri Lankan rupees (LKR.) and nearest cents.

However we have decided to present our Financial Statement in LKR. And round to the nearest rupee which is effective from the financial year January 01st 2011 and ahead. Year 2017 was presented in LKR. and rounded to the nearest rupee.

The stipend and University fees relating to Capacity Building program are paid in USD (\$) where that Expenses is converted to LKR at the spot rate of transaction date and prepaid the stipend and University fees are taken in to financial statements at the rate of Balance sheet rate. The difference arisen due to changes on Exchange rate has been taken in to financial statements as exchange gain or Loss.

16.4 Accounting for Govt. Grants disclose of Govt. Assistance

- (a) Accounting for Government Grants & Disclosure of Government Assistance is adopted.
- (b) We further say, that accounting policy had been adopted with regard to the government grants was the method of capital approach but that government grant was related to the fixed assets it had been taken to the accounts under the method of income approach.
- (c) A Deferred Income Fund has been identified only in respect of the assets purchased during the year 2018 in the Financial Statements of 2018

16.4.1 Capital Grants (Treasury Grants Research)

According to the Sri Lanka Council for Agricultural Research Policy Act No.14 of 1987, all the Grants received need to be credited to CARP Fund and all the expenses need to be done out of that. In that Sense Capital Grants (Treasury Grants Research) need to be a considered as a supplementary Note to the CARP Fund and the remaining balance need to be reflected in the CARP Fund each Year. Then only Carp Fund will be remaining as an Equity Fund in Statement of Financial Position.

From 2010 to 2017 the funds that were used to purchase of fixed assets have not been reflected in the Capital Grants (Treasury Grants Research). But a depreciation income had been transferred to the Statements of Comprehensive Income. Because of that cumulative adverse effect over last years a negative balance in CARP fund was visible in Capital Grants (Treasury Grants Research) in 2017 & 2018.

Corrective Adjustments have been made in order to rectify above adverse effect based on the issues emphasized by the Auditors General by his queries dated 31.12.2019 with the reference of AGL/E/CARP/2018/03.

In Summary areas that were recognized by the Auditor General is as follows,

1. Treasury Grants Research
In the years of 2017 & 2018 Treasury Grants Research has reflected negative balances.
 - a) Council have made capital expenses more than Fund received for the activities in Capital nature in 2015, 2017 & 2018.
 - b) It was doubtful the manner of expenses that were incurred on fixed assets without reflecting such expenses in Treasury Grants Research as that is in capital nature.
 - c) The depreciation impact of Non- Consumables has also affected to the negative balance in Treasury Grants Research.
2. The Amortization of the funds received on behalf of Fixed Assets have not been happened according to the requirements of LKAS 20, Accounting for Government Grants & Disclosure of Government Assistance as the funds used for those fixed assets purchases are not reflected in Treasury Grants Research.
3. According to the Sri Lanka Council for Agricultural Research Policy Act No.14 of 1987, all the Grants received need to be credited to CARP Fund and all the expenses need to be done out of that.

In order to rectify the above the initial entries that had been passed to Accumulated Surplus or Deficit (Prior Year Adjustments), Carp Fund & Gift were reversed in respective Years and placed the correct entries according to LKAS 20, Accounting for Government Grants & Disclosure of Government Assistance the Correction entries, Calculation and the explanatory notes are attached as Annexures.

16.4.2 Research Management Activities

Generally, the Capital Fund are utilizing to Research Management Activities where the requirements of LKAS 38 for Intangible assets are not comply with. Hence the Research management activities are in a nature where that could not be capitalize. Due to that reason both the expense and amount of Fund are shown in the Comprehensive Income Statement in order to reflect the effect.

18 August 2021

Chairman

Sri Lanka Council for Agricultural Research Policy

The Auditor General's Report as per 12th sentence of the National Audit Act bearing number 19 of 2018 on Financial Statements and other legal and regulatory requirements of the Sri Lanka Council for Agricultural Research Policy for the year ending by 31 December 2020

1. Financial Statements

1.1 Qualified Opinion

Balance Sheet of the Sri Lanka Council for Agricultural Research Policy by date of 31 December 2020 and the Comprehensive Income Statement for the year ending by that date, Equity Changing Statement and Cash Flow Statement for the year ending by that date and Notes relevant to Financial Statements, Financial Statements with summarized important accounting principles for the year ending by 31 December 2020 had been audited under my execution in accordance with the regulations of the National Audit Act No. 19 of 2018 and the Financial Act No. 38 of 1971 which should be read in conjunction with the Sri Lanka Council for Agricultural Research Policy Act bearing number 47 of 1987 and 154 (1) article of the Constitution of the Democratic Socialist Republic of Sri Lanka. In accordance with the regulations of the 154 (6) article of the Constitution, my Report will be tabled in the Parliament in due course.

Except the impact of the issues detailed in the part of the Basis for the Qualified Opinion of my Report, according to the Financial Statements of the Council, I am of the opinion that the financial status of the Sri Lanka Council for Agricultural Research Policy as at 31 December 2020 and its financial activities and cash flows for the year ending by that date are expressing true and reliable status in accordance with the accounting standards of the public sector of Sri Lanka.

1.2 Basis for the Qualified Opinion

1.2.1 Deviation from Sri Lanka Public Sector Accounting Standards

Though the assets of two asset categories of which the cost was Rupees 11,045,012 were completely depreciated, those were still in use due to not reviewing of the effective life span for the fixed assets according to Sri Lanka Public Sector Accounting Standards No. 7. Action had not been taken to readjust the estimated error as per Sri Lanka Public Sector Accounting Standards No. 3 and tally in the Financial Statements accordingly.

I have conducted the Audit in accordance with the Sri Lanka Audit Standards. My responsibilities under these Audit Standards are further detailed in this Report, in the Part of Auditor's responsibility in connection with the auditing of Financial Statements.

1.3 Other Information included in the Annual Report 2020 of the Council

The information which had not been included in my Audit Report on Financial Statements and information on Financial Statements is meant by other information. Management should be responsible for these other information.

I do not state any kind of assurance or opinion on other information while this information is not covered by my opinion on Financial Statements.

Relevant to my audit on Financial Statements, my responsibility is to, when it is possible to obtain other information identified as above, read (as relevant) and when doing it, to consider whether the other information is not tallying significantly with Financial Statements or my knowledge obtained at audit or in other way.

When the Annual Report 2020 of the Council is being read, if I conclude that it contains significant error statements, those facts should be communicated to governing parties for correction. If wrong statements which had not been corrected are still stated, those will be included to the Report which will be tabled by me in due course in the Parliament as per 154 (6) article of the Constitution.

1.4 Responsibility of the Management and the Governing Parties on Financial Statements

Preparation of these Financial Statements according to Accounting Standards of the Sri Lanka Public Sector, submission in reliable form and deciding of required internal controls which create possibilities to prepare Financial Statements without significant incorrect statements which would derive due to frauds and errors, are the responsibilities of the Management.

In preparation of the Financial Statements, it is responsibility of the Management to decide the possibility of the continued functioning of the Sri Lanka Council for Agricultural Research Policy. Except if the Management considers to liquidate the Council or to cease functioning when there is no other option, it is the responsibility of the Management to maintain accounts and to disclose issues related to the continued functioning of the Council being on the basis of continued functioning.

The responsibility of the examination on financial reporting activity is taken by the Governing Parties.

Books/ ledgers and reports of the Institution on incomes, expenditure, assets and liabilities should be maintained properly so that it would be possible to prepare the annual and periodical Financial Statements in accordance with the 16 (1) sub sentence of the National Audit Act No. 19 of 2018.

1.5 Auditor's responsibility on auditing of Financial Statements

Providing a reliable confirmation that as a whole, Financial Statements do not contain significant incorrect statements which occur due to frauds and errors and issuing of Auditor's Report inclusive of my opinion are my objectives. Even though the reliable confirmation is a confirmation of high level, when the auditing is conducted according to Sri Lanka Audit Standards, it would not always be a confirmation that would reveal the significant incorrect statements. Significant incorrect statements may occur due to frauds

and errors which would affect alone or together and its significant status depends on the impact on the economic decisions taken by referees based on these Financial Statements.

As a part of auditing, action had been taken by me to conduct auditing in accordance with the Sri Lanka Audit Standards with judgment and suspicion based on my professional capacity. Further by me,

- When obtaining a basis to the audit opinion stated, for identification and assessing the risks of significantly incorrect statements which may occur in Financial Statements due to frauds or errors, appropriate auditing procedures suitable to situation were planned and implemented. The impact which occurs by a fraud is stronger than an impact which is resulting from significant incorrect statements that could appear due to wrong presentation as these could occur due to reasons such as collusion, preparation of false documents, intentional ignoring or ignoring of internal governances.
- Even though there is no intention to express an opinion on the effectiveness of the internal governance, for the purpose of formulation of auditing procedures suitable to situation, an understanding on internal governance of the Council had been obtained.
- Appropriateness of the accounting principles which have been used and the reliability of the accounting estimates and the disclosures made by the management in connection were evaluated.
- In connection with the fact that on the grounds of incidents and conditions whether there is a significant uncertainty on the continued functioning of the Council, based on the obtained audit evidences, the relevance of the adopting of the basis on the continued functioning of the Institution had been decided for accounting. If it would be concluded by me that there is a significant uncertainty, emphasis of my Audit Report should be given to the relevant disclosures in the Financial Statements. If those disclosures are not sufficient, my opinion should be modified. However, continued functioning may cease on future incidents or conditions.

- The fact that the transactions and incidents which made basis for the structure and the content of the Financial Statements as a whole had been included in Financial Statements appropriately and in reliable form and the overall presentation of the Financial Statements in which the disclosures are included were evaluated.

I make the governing parties aware of the important audit findings, main internal governing weaknesses and other issues which were identified in my audit.
